Please note: The CDI Summer Institute is a rigorous professional development week consisting of lectures and workshops conducted by leading professionals in the fields of education and child development. Participants will receive a letter certifying attendance at the end of the week. Many public school systems offer two in-service credits, or 30 hours of credit, for each week-long summer session. Attendance at follow-up sessions may provide additional credit hours each year. If you wish to receive credit for your participation, please confirm with your district office that these professional development credits / hours will be accepted.
