Other Important Information

This Benefit summary of Aetna Dental's™ Dental Maintenance Organization (DMO®) provides information on benefits provided when services are rendered by a participating dentist. In order for a covered person to be eligible for benefits, dental services must be provided by a primary care dentist selected from the network of participating DMO dentists. Aetna Dental's™ Preferred Provider Organization (PPO) coverage is provided by Aetna Life Insurance Company for some of the more frequently performed dental procedures. Under this plan, you may choose at the time of service either a PPO participating dentist or any non-participating dentist. With the PPO Plan, savings are possible because the PPO participating dentists have agreed to provide care at a negotiated fee schedule.

Non-participating Benefits are subject to reasonable and customary charge limits. The dollar amounts shown for all services represent the maximum reimbursable amount.

Specialty Referrals

1. Under the DMO Dental Plan, services performed by specialists are eligible for coverage only when prescribed by the primary care dentist and authorized by Aetna Dental™. Co-payments under the DMO plan are based on the dentist's reasonable and customary fees.
2. Dental Maintenance Organization (DMO) members may visit an orthodontist without first obtaining a referral from their primary care dentist. In an effort to ease the administrative burden on both participating Aetna dentists and members, Dental has opened direct access for DMO members to orthodontic services.

Emergency Dental Care*

In the event of a DMO emergency, call the local emergency hotline (ex. 911) or go to the nearest emergency facility. If a delay would not be detrimental to your health, contact your dentist. When you go to a dentist outside your service area for emergency treatment to relieve severe pain, bleeding or infection, you pay the charges to the dentist and submit a claim to Aetna. If the dentist was more than a specified distance (see plan documents) away from your primary care dentist, then you will receive emergency benefits coverage up to a maximum of \$100.

*Refer to your plan documents for details. Subject to state requirements. Out-of-area emergency dental care may be reviewed by our dental consultants to verify appropriateness of treatment.

Under PPO, if you need emergency dental care, you are covered 24 hours a day, 7 days a week, anywhere in the world. When emergency services are provided by a participating PPO dentist, your copayment/coinsurance amount will be based on a negotiated fee schedule. Coverage for emergency care rendered by a non-participating dentist will be provided subject to reasonable and customary charges, as determined by Aetna.

Your Dental Care Plan coverage is subject to the following rules:

Replacement Rule: The replacement of, addition to, or modification of: existing dentures, crowns, casts or processed restorations, removable bridges, or fixed bridgework is covered only if one of the following terms is met:

- (a) The replacement or addition of teeth is required to replace one or more teeth extracted after the existing denture or bridgework was installed. Dental Care Plan coverage must have been in force for the covered person when the extraction took place.
- (b) The existing denture, crown, cast or processed restoration, removable bridge, or bridgework cannot be made serviceable; and was installed at least 8 years under the PPO Dental Plan or 5 years under the DMO Dental Plan before its replacement.
- (c) The existing denture is an immediate temporary one to replace one or more natural teeth extracted while the person is covered and cannot be made permanent; and replacement by a permanent denture is required. The replacement must take place within 12 months from the date of initial installation of the immediate temporary denture.

Tooth Missing But Not Replaced Rule: Coverage for the first installation of removable dentures, removable bridges, and fixed bridgework is subject to the requirements that such dentures, removable bridges, and fixed bridgework are (i) needed to replace one or more natural teeth that were removed while this policy was in force for the covered person; and (ii) are not abutments to a partial denture, removable bridge, or fixed bridge installed during the prior 8 years under the PPO Dental plan or 5 years under the DMO Dental Plan (This exclusion does not apply for TX regulations under the DMO).

Alternate Treatment Rule: If more than one service can be used to treat a covered person's dental condition, Aetna may decide to authorize coverage only for a less costly covered service provided that all of the following terms are met:

- (a) The service must be listed on the Dental Care Schedule;
- (b) The service selected must be deemed by the dental profession to be an appropriate method of treatment; and
- (c) The service selected must meet broadly accepted national standards of dental practice.

If treatment is being given by a participating dental provider and the covered person asks for a more costly covered service than that for which coverage is approved; the specific copayment for such service will consist of:

- (a) The copayment for the approved less costly service; plus
- (b) The difference in cost between the approved less costly service and the more costly covered service.
